Designer: Celina Xie

### Zoom Recording

- **Home Page:** an introduction about the movie, a navigation bar at the top with red ribbon, and buttons for plot, cast, production, and soundtrack that will direct you to a separate page with more information on each of the topics. The buttons should be organized as a grid. I would like for there to be film stills on this page to make the viewer want to read more about each topic.
- **Plot, Cast, Production, Soundtrack:** these pages will be more content heavy so it could be useful to break up information with images from the movie. For the plot and cast pages, I'd like it to be grid structured.
- **Color:** red, white, and black
- **Photos:** film stills from the movie with warm tones
- **Font:** sans serif (if possible, the one from the movie poster)
